SUMMARY

I am a Full Stack MERN Developer based in Karachi with expertise in **React.js, Next.js, Node.js, Express, and MongoDB**. I specialize in building scalable, efficient, and user-friendly web applications, combining strong front-end skills with solid back-end development. With a focus on modern UI/UX principles and clean code practices, I thrive in collaborative environments and am passionate about learning new technologies. I am actively seeking opportunities to work on impactful projects and grow as a developer.

PROFESSIONAL EXPERIENCE

TailorFlow AI – Full Stack Developer (*Apr 2026 – Present*)

- Developed multiple web applications, including a Service Management System, using Next.js, Tailwind CSS, and Framer Motion, delivering an engaging and modern user experience.
- Crafted responsive and scalable interfaces that maintained consistent performance across desktop, tablet, and mobile platforms.
- Integrated LLM-powered features into applications to enable intelligent text generation, summarization, and conversational capabilities.

Tech Stack: React Native, Next.js, React, Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB, Git, GitHub, Python.

Virtual Care – Full Stack Developer (*Jun 2025 – Mar 2026*)

- Built multiple projects including a Service Management System using Next.js, Tailwind CSS, and Framer Motion, enhancing UX with smooth animations.
- Designed and delivered scalable, responsive UIs, ensuring seamless performance across devices.
- Applied modern UI/UX principles to improve usability and accessibility.

Tech Stack: Next.js, React, Tailwind CSS, Framer Motion, Node.js, Express, MongoDB, Git/GitHub

Rawts – Front-End Developer (*Jun 2024 – Sep 2024*)

- Developed a responsive portfolio website using Gatsby, increasing portfolio views by 35%.
- Leveraged Google Analytics to analyze user behavior, boosting engagement by 30%.
- Implemented modular coding practices to improve maintainability and scalability.

Tech Stack: Gatsby.js, React, Tailwind CSS, Google Analytics, Git/GitHub

EDUCATION

Undergraduate (2021 -2025)

- Bachelor of Science in Computer Science CGPA: 3.01

- Govt Jauhar Degree College (August 2019 - May 2021)

- Pre-Engineering - Grade: 71% (A)

LANGAUGE

- English: Professional Proficiency

- Urdu: Native Proficiency

Technical Skills:

- **Programming Languages:** Python, JavaScript (ES6+),

- **Markup & Styling:** HTML, CSS, Tailwind CSS, Bootstrap, Material-UI, Chakra-UI ,Particle.js, ,
Framer Motion, AOS

- **Software Development Concepts:** Object-Oriented Programming (OOP), Functional
Programming, Design Patterns ,DSA.

- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js

- **Databases:** MongoDB, SQL

- **Analytics & Monitoring:** Google Analytics, Firebase Analytics

- **Tools:** Git, GitHub, Postman, Jira

- **Cloud & Platforms:** AWS (S3 bucket), Cloudinary

PROJECTS

DSA Learning Mobile App

- Developed a cross-platform mobile application for learning Data Structures and Algorithms (DSA) using React Native and Expo.
- Implemented interactive lessons, coding exercises, and progress tracking to enhance learning outcomes.
- Configured EAS builds for efficient deployment and integrated Material UI for a modern user interface.

Tech Stack: React Native, Expo Go, EAS, Material UI

Job Finder Platform

- Built a job aggregation platform that collects and displays opportunities from multiple sources using web scraping techniques.
- Developed RESTful APIs and implemented efficient data storage and retrieval mechanisms.
- Designed a responsive interface to streamline job search and application tracking.

Tech Stack: React.js, Node.js, MongoDB, Web Scraping

Auto Expense Hub

- Developed a full-stack expense management application for tracking income, expenses, and financial insights.
- Implemented secure backend APIs and interactive dashboards for real-time expense monitoring.
- Designed a responsive and user-friendly interface using Material UI components.

Tech Stack: React.js, Express.js, MongoDB, Material UI

AI-Based Home Construction

- Built an AI-powered platform that provides intelligent recommendations and planning support for home construction projects.
- Fine-tuned and integrated Large Language Models (LLMs) to deliver personalized guidance, cost estimation, and project insights.
- Developed responsive user interfaces and scalable backend services to support AI-driven workflows.

Tech Stack: React.js, MongoDB, Tailwind CSS, LLM Fine-Tuning, Python

COURSES

On-Site Courses and Certifications:

- Saylani Mass IT Training - Web and Mobile Application Development (2023-2024)

Online Courses and Certifications:

- Python by Coursera
- Front-End Web Development with JavaScript and React.js (Meta)
- Gold Level in JavaScript on Hacker Rank
- Silver star in Problem Solving on Hacker Rank
- Gold Level In Python on Hacker Rank
- Silver star in SQL on Hacker Rank
