SUMMARY

I am an **experienced Front-End Developer** based in Karachi with a strong command of **React.js, Next.js, JavaScript (ES6+), TailwindCSS, Bootstrap, and Material UI**. I specialize in developing **scalable, efficient, and user-friendly web applications**, focusing on modern UI/UX principles to enhance user experience. With a solid foundation in **front-end development**, I also have **basic knowledge of backend technologies like Node.js** and a keen interest in expanding my expertise in full-stack development. I thrive in collaborative environments, contributing to innovative solutions and continuously learning to stay ahead in the ever-evolving tech landscape. I am actively seeking opportunities to work on impactful projects and grow as a developer.

PROFESSIONAL EXPERIENCE

Freelancing – Front End Developer (Nov 2024 - Present)

- Developed many projects like a Serve Management System using Next.js, Tailwind CSS, and Framer Motion, enhancing user experience with smooth animations.
- Designed and implemented a scalable, responsive UI, ensuring seamless performance across devices.
- Focused on modern UI/UX principles, optimizing usability and accessibility for end users.

Rawts - Front-End Developer (Jun 2024 - Sep 2024)

- Developed a responsive portfolio website using Gatsby and increasing portfolio views by 35%.
- Utilized Google Analytics to analyze user behavior, providing actionable insights that improved engagement by 30%.
- Followed modular coding practices to enhance maintainability and scalability for future enhancements.
